COUNCILLOR C. HAMPTON

**On Wednesday 22nd August 2012 the Charollais Sheep Genetics NZ was formed.**

**The breed has agreed on the following –**

**That the breed has Appendix flocks. At the  $\frac{3}{4}$  stage ewes are eligible to enter the purebred flock and the resulting progeny are purebred. Rams require a further cross to be used in a Purebred flock and Appendix flock.**

**That all sheep entering a Purebred flock from an Appendix Flock be tested 'clear' of any genetic disorders that may be associated with that particular sheep breed.**

**That it be mandatory for all members to be on SIL.**

**That all members participate in the Across Flock Scheme.**

**That any ram(s) representing the breed in the CPT trial be chosen by the group.**

**That it be the role of the organization to give assistance to new breeders**

**That purebred Charollais rams and ewes for breeding should be tested for Microphthalmia.**

**That 3/4 ewes entering purebred flocks must be inspected by a Council Appointee.**

**From 2014 all sheep previously denoted with prefix Danengate will now be shown with the prefix Farmgene.**

---
